## What is this product?

### Type

This is an investment fund established as a Company With Variable Capital (SICAV).

### Objectives

**Investment objective** The primary investment objective of the sub-fund is to achieve high income and some capital growth. The sub-fund will predominantly invest in a diversified portfolio of emerging market corporate debt securities of varying maturities along with cash, cash-equivalent and other ancillary instruments, including medium term notes (MTNs), futures, forwards and swaps.

**Investment policies** The sub-fund may invest:

- Up to 100% of its assets in fixed and floating rate securities which shall be principally, but not limited to, securities issued by issuers domiciled in emerging markets;
- Collective investment schemes provided that no single collective investment scheme at the time of acquisition represents more than 10% of the assets;
- A maximum exposure of 60% of its assets to a single country;
- No more than 80% in non-rated securities or securities rated below Investment Grade;
- Up to 60% of its assets in non-USD or non-USD-pegged assets. The maximum limit on any single non-USD currency is 50% of its assets.

**Benchmark** The sub-fund is actively managed and this share class uses the Goldman Sachs USD GS 3 Month Money Market Index plus 400 bps for performance fee calculation only. The Investment Manager may use its full discretion to invest in order to take advantage of specific investment opportunities. This means that the deviation of the sub-fund to the Goldman Sachs USD GS 3 Month Money Market Index plus 400 bps may be significant.

**Redemption and Dealing** Investors may subscribe, convert and redeem shares on demand on a daily basis, being a valuation day, as further determined in the prospectus of the fund.

**Distribution Policy** Income generated will be reinvested.

**Launch date** The sub-fund was launched on 25/09/2013. This share class was launched on 11/03/2014.

**Fund Currency** The reference currency of the sub-fund is USD.

**Switching between Funds** Shareholders have the right to convert all or part of their Shares of any Class into Shares of the same Class in another sub-fund or into Shares of another existing Class of the same or another sub-fund by applying for conversion in the same manner as for the issue of Shares. However, the right to convert Shares is subject to compliance with any conditions (including any minimum subscription amounts) applicable to the Class into which the conversion is to be effected.

### Intended retail investor

This product is intended for investors who plan to stay invested for at least 5 years and are prepared to take on a medium-low level of risk of loss to their original capital in order to get a higher potential return. It is designed to form part of a portfolio of investments.

### Term

The Fund is open-ended and has no maturity date. Subject to the liquidation, dissolution and termination rights of the Board of the Fund as set forth in the Fund prospectus, the Fund cannot be automatically terminated. The manufacturer, Emirates NBD Asset Management Limited, is not entitled to terminate the product unilaterally.

### Practical information

**Depository** State Street Bank International GmbH, Luxembourg Branch.

**Further information** The Articles of Incorporation, the current Prospectus and the latest periodical reports may be obtained in English free of charge during normal office hours at the registered office of the fund or online at [www.emiratesnbd.com/assetmanagement](http://www.emiratesnbd.com/assetmanagement). The net asset value per share of each class and the issue and redemption prices thereof are available at the registered office of the fund.

## What are the risks and what could I get in return?

### Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity of the sub-fund to pay you.

**Be aware of currency risk.** In some circumstances, you may receive payments in a different currency, so the final return you will get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Beside the risks included in the risk indicator, other risks may affect the fund performance. Please refer to the fund prospectus, available free of charge at <https://funds.waystone.com/public>.

### Performance scenarios

The figures shown include all the costs of the product itself, and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

**What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.**

**The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.**

The stress scenario shows what you might get back in extreme market circumstances.

**Unfavourable:** this type of scenario occurred for an investment between 31 August 2021 and 30 September 2022.

**Moderate:** this type of scenario occurred for an investment between 31 January 2014 and 31 January 2019.

**Favourable:** this type of scenario occurred for an investment between 29 January 2016 and 29 January 2021.

### What happens if the sub-fund is unable to pay out?

If we are not able to pay you out what we owe you, you are not covered by any national compensation scheme. To protect you, the assets are held with a separate company, a depository. Should we default, the depository would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment.

### What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

#### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,
- 10,000 USD is invested.

Example Investment 10,000 USD	if you exit after 1 year	if you exit after 5 years (recommended holding period)
<b>Total Costs</b>	<b>890 USD</b>	<b>3,747 USD</b>
<b>Annual cost impact*</b>	<b>8.9%</b>	<b>6.0%</b>

(\* ) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 8.6% before costs and 2.6% after costs.

## Composition of costs

One-off costs upon entry or exit		Annual cost impact if you exit after 1 year
<b>Entry costs</b>	<b>4.00%</b> of the amount you pay in when entering this investment. The entry charge shown is a maximum figure. In some cases, you might pay less – you can find this out from your financial advisor.	<b>400 USD</b>
<b>Exit costs</b>	<b>0.00%</b> , we do not charge an exit fee for this product, but the person selling you the product may do so.	<b>0 USD</b>
Ongoing costs taken each year		Annual cost impact if you exit after 1 year
<b>Management fees and other administrative or operating costs</b>	<b>2.19%</b> of the value of your investment per year. This is an estimate based on actual costs over the last year.	<b>219 USD</b>
<b>Transaction costs</b>	<b>0.41%</b> of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	<b>41 USD</b>
Incidental costs taken under specific conditions		Annual cost impact if you exit after 1 year
<b>Performance fees</b>	<b>2.30%</b> The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years. The performance fee is 15.00% on the increase of the Net Asset Value over a Goldman Sachs USD GS 3 Month Money Market Index plus 400 bps, as further described in the prospectus.	<b>230 USD</b>

## How long should I hold it and can I take money out early?
